

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a one hundred year tradition of quality and service. They focus on various modules, integrated systems and components to original machinery manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their international operations. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

By only employing future focused staff, Meritor strongly thinks these top-caliber workers will be able to rapidly adapt to changing environments and exhibit the commitment and performance considered necessary so as to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers their employees different possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which comprise axles, drivelines, braking and suspension systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of their worldwide engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group which is dedicated to ensuring optimum development at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 nations.

The supplier development network is specifically situated to be able to support new business development. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each part of the business. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
