

Advance-Nilfisk Part

Advance-Nilfisk Part - Imagine how tedious it will be to tidy up your very own home after having a large party, with no assistance from cleaning equipment. Back in the day, the time upholstery and carpets had the dust beat out of them manually; cleaning cloths, brushes and brooms were the leading cleaning supplies of that time.

The man who founded Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After founding his company during the year 1906, he started to make motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's vision from the beginning was to have an international company marketing merchandise globally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented an amazing, ground breaking vacuum cleaner which can be operated by one individual since it just weighed 17.5 kilos! This creation came in a time where various cleaning machines were massive and needed at least 4 operators, therefore, the Nilfisk C1 changed everything and evolved the manner we clean forever. The genius behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an existing dilemma; things get filthy and have to be cleaned on a regular basis, without too much effort.

Gradually, the company Nilfisk-Advance developed all through the years. During the early nineteen eighties the business expanded fast when the business became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance ahead within the business, aspiring to be an active global player in producing professional cleaning machines. Nilfisk-Advance is presently found in every part of the globe by steadily acquiring a lot of small businesses so as to develop their product portfolio and presence in new markets. They are proud to present a variety of cleaning solutions to suit each need.
