

Spreader Bar for Forklift

Forklift Spreader Bar - ELME has been proudly operating ever since 1974, becoming the largest independent spreader company all over the world. They are a dedicated manufacturer of spreaders meant for numerous different applications such as the trailers, handling of containers and swap bodies.

ELME presently has over 125 staff with all engineering is done in house by way of making use of all of the latest CAD systems and FEM tools. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the globe.

The ELME product collection offers spreaders meant for various trailer and container handling operations. Several of their inventory consist of: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders in addition to a wide variety of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by making use of high quality components in order to guarantee reliability and high standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market reaction and inventive modular spreader concept.
