

TCM Forklift Parts

TCM Forklift Part - Forklift trucks are a major player in the material handling field of every global trade. Transporting industrial goods occurs each and every day on our industrious world. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread globally.

In nineteen forty nine, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply called TCM Corporation. Throughout the years, TCM forklifts have become a worldwide leader in forklift manufacturing and have built a solid reputation with the industry. TCM began building lift truck manufacturing locations outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over fifty years of accumulated expertise and technology, TCM has been proudly making many models of industrial trucks, making their models known all over the world. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling company.
