

## Clark Forklift Parts

Clark Forklift Part - At present, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized items built for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs offered by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and advantageous system of "Lean Manufacturing" for its assembly facilities and application of resources. This system was developed to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to enhance the effectiveness and brilliance of their merchandise while minimizing costs. The new value engineering program combines modern product growth and delivers superior client support and service within the industry.
